We are well known in the industry due to our ability of manufacturing, importing and supplying an accurately designed range of rotor blades, nozzle plates etc. Further, we offer reliable steam turbine reconditioning services **ISI Certified**.

About Us

Sri Ram Engineering was established in **2009** as a **manufacturer, importer and supplier** of **Engineering College Equipments, Anti Vibration Mounts and Steam Turbines & Turbine Spares**. In addition to this, we offer a reliable solution of **Steam Turbine Reconditioning**. Our range encompasses **White Metal Lead Bearings, Rotor Blades, Nozzle Plates, Steam Turbines, Rotor Shafts, Re-Blading, Diesel Engine Test Rigs, Petrol Engine Test Rigs, Mechanical College Steam Power Plant** and many others. All our range is designed by specialized professionals, who are well-versed the ongoing requirements of clients. Further, we manufacture our range using high grade raw material, sourced from authorized and reliable vendors of the industry. Besides, advanced technology and methods are used in the development of our range, which make them incomparable in the industry. Clients appreciate our products for their fine performance, dimensional accuracy, less maintenance, sturdy construction, tensile strength and many others. It is just because of our products' matchless quality and features that we have become the prime choice of huge clientele that are based all over the country. Timely delivery of bulk clients' orders has also made us the prime choice of clients. We perform our all business operations under the skillful guidelines of **Mr. Raju K**, the honorable proprietor of **Sri Ram Engineering**. His in-depth...
